

Specialty Granular Fertilizer

Yara Mila Complex (12.11.18+8 S + 3MgO+TE)

Yara Mila complex is a high-quality specialty granular fertilizer, manufactured in Yara International, Norway, formulated to meet precise crop requirements, these NPKs are some of the most highly efficient sources of N, P and K available. Each particle contains precisely tailored amounts of NPK. So, when accurately applied to a crop, Yara Mila Complex ensures the correct, complete addition and balanced distribution of these major nutrients.
